RE: Annual Notification of Availability of Asbestos Management Plan and Update of Activities

Northlake Christian School

70104 Wolverine Drive

Covington, LA 70433

Date: June 3, 2019

On October 22, 1986, President Reagan signed into law the Asbestos Hazard Emergency Response Act (AHERA). The law required the EPA to develop regulations which provide a comprehensive framework for addressing asbestos in public and private elementary and secondary schools. In Louisiana, this rule is governed on the state level under LAC 33: III Chapter 27, Asbestos-Containing Materials (ACM) in Schools and State Buildings. This rule requires all schools to inspect for friable and non-friable asbestos in school buildings, develop Management Plans that addresses asbestos hazards in the school buildings, and implement response actions in a timely fashion.

One of the requirements of this law is to annually notify parents, teachers, staff, and support groups of the availability and location of the school building's Management Plan. The Management Plan for Northlake Christian School is located in the building's Main Office at 70104 Wolverine Drive, Covington, LA 70433. Please be advised that information regarding any inspections/re-inspections, surveillances, response actions, and post-response action activities, if performed, are included in the Management Plan and available for your review.
